

Luxury and style

Ned Taddei from Taddei Orchards in Gingin, north of Perth says his MAN TGA 26.430 is the most comfortable truck he's ever driven: "more comfortable than most cars."

"We need the softest ride possible and with air-ride suspension throughout the truck and trailer, we've got it," says Ned.

Being the third generation of the Taddei family to be involved in the family business (it was started up in the early 1940s), Ned, his brother Robert and brother-in law Carlo Scamoffo run the day-to-day operations of the company.

Having worked with AV Trucks in the past for the company's freight needs, Ned returned there once again when it was time for an upgrade.

"We've worked with the team at AV Trucks for a long time so they know what we need," says Ned.

"They always go out of their way to help us with our requirements. The service is really good. The sales and back-up service is second to none. We couldn't be happier.

"We ordered the truck and then had the trailer built specially for us by Transport Spares and Equipment in Perth. The whole unit works together and is perfect for our freight – carting fruit from Gingin to the markets in Canning Vale, Perth."

Suited to long-haul trips, the MAN TGA works well at average speeds, providing low fuel consumption and is perfect for applications where weight, dimensions and fuel economy are crucial factors. With ABS and EBS, Taddei Orchards' MAN is well set-up with safety in mind and with an Automated ZF Tipmatic transmission, driver ease and comfort is catered for.

"We are very happy with the outcome," adds Ned. "The truck is very nice to drive and the team at AV Trucks does everything it can to assist us. I would definitely recommend both the product and dealership." ●

Understanding the needs of drivers & operators

Reliability and know how are the key drivers at AV Truck Services, a wholly-owned West Australian company with over 25 years experience in the trucking industry.

State distributors for MAN and Western Star Trucks including parts, service and fabrication shop.

The company's success is based on understanding the needs of drivers and operators.
